Women Owned Small Business

Methodologies:

Through our extensive supply chain background, we can provide a full picture from procurement to utilization. We have developed methodologies through which we are able to measure and quantify quality and cost savings. With our expertise, we will help you monitor your metrics and reach your company's goals. We are highly skilled in the following classification systems:

- UNSPSC
- ICD 9 & 10
- DRG's
- CPT/HCPCS
- NDC's
- AHFS Therapeutic Codes

Core Capabilities:

CBT LLC is a woman owned business that provides in-depth analytics, customized reporting and process improvement. By utilizing an extensive supply chain background CBT LLC can uncover the savings opportunities from procurement to utilization.

How we deliver:

Analytics

- Contract analysis
- Trend analysis on business purchase spend
- Methodology creation for quality and cost savings

Reporting

- Dashboard creation and maintenance
- Key Performance Indicator (KPI) reporting
- Marrying disparate data sets into usable metrics
- Customized and optimized reports for each client
- Continuous reporting based on each client's needs

Process Improvement

- Assessment of current processes
- Identify gaps in current processes
- Propose new processes and reinforce best practices
- Implement new process for long term success

Why CBT LLC:

- Passionate about data analytics and how it can transform your organization
- Tailored solutions to your specialized needs
- Worked for both suppliers and purchasers, which gives us a unique perspective
- Cost conscious
